MEMORANDUM FOR: R&RD Personnel

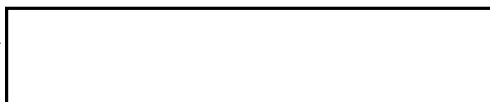

SUBJECT : Reorganization

1. The Research and Reference Division, PSG is reorganized, effective immediately, to realign and amalgamate those functions in which there was duplication or enough similarity to warrant centralization in one facility. Additional responsibilities assigned to R&RD required assimilation in the interest of efficient utilization of personnel, space and equipment in preparation for on-coming programs.

2. Consistent with the above objectives and existing Center policy of reassigning personnel to develop supervisory flexibility and further individual career programs, a number of key personnel assignments are being made. These include:

SUBJECT: Reorganization

3. It is hoped that this realignment, together with our increased emphasis on individual training and the use of automated methods and equipment, will enable the Research and Reference Division to meet its additional and increasingly important responsibilities within the stringent deadlines imposed on it by its customers.
